

HUNS SPEED UP RETREAT

**Get Clothes that
save for you**

THERE are other ways of saving than by not spending money; sometimes the greatest saving of all is when you do spend money.

That's what happens when you buy Hart Schaffner & Marx clothes. You get so much real value, in service, in all-wool fabrics, in good looking style; you get clothes that last so long; that there's real economy in buying them.

That's why we have these clothes to sell; that's why we say—if you need clothes this fall, the real way to save money is to spend it for

SOLDIERS KILLED IN TRAIN WRECK

DISASTROUS ACCIDENT ON ROCK ISLAND BETWEEN DUNCAN AND COMANCHE.

(By the Associated Press)
Chickasha, Okla., Sept. 5.—Two men are dead and forty-five reported injured when Rock Island train No. 11 filled with drafted troops from northern Oklahoma and Kansas, derailed between Duncan and Comanche, Okla., south of this city at 5:30 this morning.

Victims Taken to Chickasha.
Chickasha, Okla., Sept. 5.—The dead and wounded are being brought here with the exception of James Arthur Mills, Enid, Okla., who was killed. Names of the other dead and injured are not yet available.

ALLIES CONTINUE TERRIFIC DRIVE

BURNING SUPPLIES AND BLOWING UP AMMUNITION TO SAVE FROM CAPTURE BY ALLIED FORCES.

(Associated Press War Summary)

The Germans have begun a general retreat from the Vesle river between Soissons and Rheims. General Mangin has advanced his lines to the edge of the plateau from Vauxerre to Baslieux to a position to the north dominating the Aisne and the Chemin Des Dames. American patrols have confirmed reports that the enemy has removed his supplies and additional territory here is expected to be taken with nothing more than rear guard opposition. The French are advancing in the direction of Ham after an advance of from four to seven miles from Mt. St. Simeon to the Canal Du Nord. Franco-American forces on the southern end of the battle front are menacing German occupation of all territory north of the Aisne. The Germans have but few defenses left them before they will be compelled to make a stand on or behind the old Hindenburg line.

French in Hot Pursuit.

Paris, Sept. 5.—The German retreat before the French northeast of Noyon continued during the night, says today's war office statement. French troops kept in touch with enemy rear guards and pushed the foe east of the Canal Du Nord. Advancing along the Vesle river Franco-American forces reached the crest of the ridge dominating the region on the Somme front. The French crossed the Somme between Voyennes and off. Between the Ailette and the towns of Clancy, Braye and Missy-sur-Aisne have been taken.

British Make Important Gains.

London, Sept. 5.—Marked progress was made by the British last night along the Flanders front, according to today's official statement. Ploegsteert village has been captured as has Hill 63, southwest of Messines. On the Lys front the British hold the general line of Wulvergem, Ploegsteert, Nieppe, Laventie and Givenchy. From Neuve Chapelle southward to Givenchy the British have reached the line they held up to the German attack on April 9th, last, while to the east of Givenchy sections of old German positions have been taken.

French Advance 7 Miles.

With French Army in France, (Wednesday 10 P. M.)—Guiscard, north of Noyon, was captured by the French this afternoon following a general advance of from four to seven miles from Mont St. Simeon to the Canal Du Nord. The Germans appear to be burning their supplies and blowing up the ammunition dumps in the region north of the Oise river and east of Noyon-Cuiscard road to prevent their falling into the hands of the victorious allies.

**1,600,000 TROOPS
NOW IN EUROPE**

(By the Associated Press)
Washington, Sept. 5.—General March announced that the total embarkation of American soldiers for all fronts passed the 1,600,000 mark August 31. The thirty-sixth division, Texas and Oklahoma troops, has completed debarkation.

**27,000 GRADUATE NURSES
ENROLL WITH RED CROSS**
New York, Sept. 5.—There will be enough nurses for the sick and wounded of America's army of 5,000,000 next year, according to a statement made here today by Miss Adelaide Nutting, chairman of the committee on nursing of the Committee on National Defense.

She said that whereas Surgeon General Gorgas had called for 25,000 graduate nurses by next January, 27,000 already had been enrolled by the Red Cross and 16,000 of these actually inducted into military service.

**LANDSLIDE KILLS
ELEVEN LABORERS**

(By the Associated Press)
Portsmouth, Va., Sept. 5.—Eleven laborers were killed and over a score injured in a landslide which caught over 220 men, mostly negroes, employed on excavation for new dry dock at Norfolk navy yard today.

**COLLINSVILLE NOW PART
OF TULSA COUNTY**
Oklahoma City, Ok., Sept. 5.—Governor Williams has issued a proclamation declaring Collinsville, in Rogers county, a part of Tulsa county. Protest had been made by citizens of Claremore, and final action of the governor was held up pending an opinion from the Attorney general. He held that in the case of the election in Tulsa county only a majority of the votes of the qualified electors voting in the election sufficed to carry the proposition. It had been contended that it required a majority of all the voters of the county.

FACULTY MEMBERS WORKING ON S. A. T. C.

The East Central State Normal is in earnest about putting over the Student's Army Training Corps, is evidenced by the workers from the normal faculty who are taking the field. Pres. Gordon is sending out strong representatives to the various counties of the district who will put the matter up to the people and endeavor to bring the youth of this section of the state to Ada for both military and literary training.

Prof. E. A. MacMillan went to Shawnee this morning and telephoned Pres. Gordon that a great meeting has been arranged in that city for tonight, having the endorsement of both the city and county superintendents at that place.

Prof. M. B. Molloy has gone to Roff, Sulphur, Pauls Valley and Purcell and will work considerable territory in that section of the district.

Prof. E. C. Wilson went to Coalgate on the morning train and will present the matter to the people of Coalgate and Coal county, thence to Johnston county.

Prof. E. E. Ericson will go to Henryetta and Okmulgee Friday morning, working those cities and other places in the north end of East Central district.

Prof. A. A. Cruz, who has already done some work in Holdenville and Hughes county, is again in that section in behalf of East Central and the S. A. T. C.

FIRST GAME OF WORLD SERIES OPENS

(By the Associated Press)
Chicago, Sept. 5.—With clear and warm weather predicted the Chicago Nationals and Boston Americans at 2:30 this afternoon made a belated start in the battle for the world's baseball championship. Weather permitting four games will be played here, the remaining games to be staged at Boston until one club has won four games. Vaughan for the Cubs and Mays for the Red Sox were considered mound possibilities early this afternoon.

I. W. W. CHARGED WITH DYNAMITE EXPLOSION

Chicago, Ill., Sept. 5.—Four persons were killed and more than seventy-five others injured by the explosion of a bomb in the crowded entrance to the Federal building at 3:10 o'clock this afternoon. The explosion, the force of which was so great that it not only wrecked the entrance of the building, but shattered every window on the first three floors of two buildings across the street, was attributed to the I. W. W. by Phillip J. Barry, in charge of the local offices of the Department of Justice.

**I. O. O. F. GRAND LODGE
OWNS \$55,000 BABY BONDS**
(By the Associated Press)
Guthrie, Ok., Sept. 5.—G. W. Bruce, secretary of the Oklahoma Grand Lodge, I. O. O. F., today purchased for the grand lodge \$18,000 of war savings stamps. This makes a total of \$55,000 invested in these securities by the grand lodge.

The Ada Title and Trust Co. has moved from its temporary quarters in the Masonic building to the newly completed rooms in the rear of the Oklahoma State bank.

THE CHEERFUL CHERUB

My pocketbook is very flat,
I'm always broke as I can be—
No matter what big crowds I'm in
Pickpockets never worry me.

WEATHER REPORT.
Fair and slightly warmer is the weather man's guess at Friday.

DELINQUENT TAX LIST

FOR THE YEAR 1917 IN PONTOTOC COUNTY, OKLAHOMA

Notice is hereby given that all personal taxes for the year 1917 that have not been paid are under the law delinquent; and all persons whose names appear in the following list owe for personal taxes for the year 1917, the amounts set opposite their names.

To these amounts will be added penalty at the rate of 18 per cent per annum from the date said taxes became delinquent and the cost of publication as the law requires.

If not paid within twenty days from the date of this notice tax warrants will be issued for the same and put in the hands of the sheriff of said county for collection.

Given under my hand this 29th day of August, A. D. 1918.

LEE DAGGS,

Treasurer of Pontotoc County.

J. T. CUMBLE IN JAIL ON CONSPIRACY CHARGE

Oklahoma City, Ok., Sept. 4.—J. T. Cumble, socialist candidate for governor of Oklahoma in 1910, was brought to Oklahoma City this morning from Muskogee and is held in the county jail on a charge of conspiracy to violate the draft law. Federal authorities said they were not ready yet to announce where and when the alleged violations of the law took place.

Cumble lives in Garvin county near Lindsay and has been an active agitator in the state for several years. Federal officers here say that he has been under surveillance for several weeks but was arrested only recently.

Cumble was nominated by the socialists as their candidate for governor in 1910 and made the race against Lee Cruce, democrat, and Joseph McNeal, republican. He received 24,707 votes in the general election.

ANOTHER ADA BOY WHO IS MAKING GOOD

In the Oklahoma of Monday appeared a picture of Lieut. Longley Fentem, son of Prof. and Mrs. A. L. Fentem of this city and the following notice of this young man's career: "Longley Fentem, an Ada boy, has the distinction of having gone into the army as a buck private and going to second lieutenant in eight months, without going through an officers' training camp. He enlisted and entered service in the medical corps last autumn. He was promoted to first class private in a short time, and this summer jumped to second lieutenant. He is now registrar at the hospital at Camp Hancock, Augusta, Ga., and expects to sail for France in a few days.

DEFENSE COUNCIL TO AID DRAFT BOARDS

Oklahoma City, Okla., Sept. 4.—(Special)—In order to expedite the classification of men who will register under the new draft law the Oklahoma State Council of Defense has instructed all county councils to consult with the draft boards on enlarging the legal advisory boards of all local boards. To this end from five to twenty-five men will be added to the boards to take care of the needs of registrants in making out questionnaires and in giving other advice. The new appointees need not be lawyers.

CASUALTY LIST.

The following casualties are reported by the commanding general of the American Expeditionary forces:

Killed in action 23
Missing in action 24
Wounded severely 84
Died of wounds 19
Died of disease 7
Wounded, degree undetermined . . . 77
Total 234

Oklahomans.
John L. Cowen, Pearsonia, killed in action.

Tom Grimes, Frederick, died of wounds.

Earl B. Burdick, Manchester, wounded severely.

John F. Loessin, McLoud, wounded, degree undetermined.

Vergil F. Allen, Atoka, wounded, degree undetermined.

Tillman Dye, Idabel, wounded, degree undetermined.

Wm. H. Edwards, Leflore, wounded, degree undetermined.

Willie R. McCluskey, Mangum, wounded, degree undetermined.

The army casualty list issued Wednesday includes the following:

Private Ira A. Bonnell, Coltry, Okla., killed in action.

Private Marvin J. Rodgers, Pastie, Okla., missing in action.

The following casualties are reported by the Commanding General of the American Expeditionary forces:

Killed in action 49
Missing in action 13
Wounded severely 34
Died accident and other causes . . . 1
Died of disease 1
Wounded degree undetermined . . . 8
Died of wounds 7
Total 113

Oklahomans
Earl Summer, Morris, missing in action.

Edgar L. Harris, Comanche, died of disease.

Charles Morrow, Wirt, missing in action.

PUBLIC SCHOOLS OPEN MONDAY, SEPT. 9TH

The City Public Schools will begin the fall term Monday, September 9th. Indications are the schools will have the largest enrollment in their history and prospects for a splendid year's work are excellent. Many citizens of the county are moving to Ada to take advantage of her schools; especially is this true of those whose children have completed the course in the rural schools. To such we extend a hearty welcome. Ada is rapidly becoming an educational center and her citizens appreciate this responsibility as well as opportunity.

The Ada High School is recognized as one of the first class high schools of the state. It now has twenty-four entrance credits recognized by the University of Oklahoma and other colleges and universities of the South. There are ten teachers giving their whole time to this department and four courses are offered as follows: The Classics, The Science, The Commercial, and the Manual Arts Course.

The four ward schools of the city will be in charge of strong faculty of experienced teachers this year. The lines dividing the city into wards remain as they were last year. No children will be enrolled who do not reside in the wards in which these lines place them.

The school year at hand will present its own peculiar problems. This much is certain, however: it makes no difference what the problems may be, the school is and must go on just as thoroughly and efficiently as possible. We must win the war and at the same time we must educate these boys and girls for the added responsibilities that must be theirs a decade hence because of the war. We cannot afford to fail in this and duty points just as clearly here as in any work we do. We are asking therefore for the hearty and sincere co-operation of all friends and patrons of the school to the end that this school year may mean the most in the lives of the 2250 school children committed to our care.

The classification and enrollment of high school pupils will be held at the high school building Friday and Saturday of this week. Parents who desire consultation with reference to courses or other matters will do well to call at the high school building and go over these with us. We shall be glad to have you come any time this week.

J. E. HICKMAN, Superintendent.

FIFTY-FIFTY RULE NOW IS DISPLACED

Oklahoma City, Okla., Sept. 3.—The fifty-fifty rule covering the sale and consumption of wheat flour and substitutes is rescinded, effective September 1, and 114 in its place, and 80-20 regulation is ordered by the United States Food administration.

The official telegram from Herbert Hoover to C. B. Ames, federal food administrator for Oklahoma:

"The recent careful survey by the Food Administrators of the United States, France, England and Italy, of the food resources of the 220,000,000 people fighting against Germany, shows that to maintain enough supplies and the necessary reserve against disaster there must be maintained in all these countries a conservation of wheat flour during coming year. It has been agreed that the wheat bread of all shall contain twenty per cent of other grains than wheat and it is just that we should bear our share in this saving and our bread should be at least identical with those who are suffering more greatly from the war than ourselves. Distribution and transportation circumstances in the United States render it necessary to rely very largely on voluntary action in our homes to enforce this mixture. The victory bread so made is wholesome and there is no difficulty in its preparation. We desire to emphasize that the mixtures are for wheat and bread and the saving of wheat flour but are not intended to displace the large use of corn bread. We must use the mixture with wheat flour in addition to our normal consumption of corn bread."

SUMMERS CHAPEL.

This section was visited by a good rain Sunday night.

The farmers are gathering corn, and report a much heavier yield than was at first expected.

Dr. and Mrs. S. L. Burns returned home last week from Arkansas and say crops do not look as well there as in Oklahoma.

Mrs. Edna Holliday and children of Lindsay, returned home Saturday after a few days' visit with friends and relatives.

The Pentecostal Holiness have just closed a successful revival at the Chapel.

Mr. and Mrs. Albert Young of Yeager were Summers Chapel visitors Sunday evening.

Grandma Summers is visiting at the home of her son, Mr. T. G. Summers, this week.

Mr. and Mrs. G. W. Keener were shopping in Vanoss Saturday.

Mr. A. Summers has his new gin completed and is ready to serve the public.

Cotton picking is the order of the day and the nice rain we had Sunday will make the work much more pleasant.

BAPTIST ASSOCIATION MEETS AT CENTER

The Pontotoc County Missionary Baptist Association will meet at Center this week. The introductory sermon will be preached Wednesday night. Thursday morning the regular session of the Association will begin and will run two days.

The First Baptist church of this city elected the following members to act as messengers: Rev. Bonnie Grimes and wife; W. C. Duncan and wife; Rev. R. E. L. Ford and wife; J. F. Jackson, Junius Riddling, D. W. Swaffar, J. E. Harris, J. M. Brundage.

All the Baptist interests of the county and state will be reported on and discussed by pastors and visiting brethren. It is hoped that the attendance will be large.

LATE TELEGRAPH BRIEFS

Vladivostok, Aug. 31.—Entente and Czech-Slovak forces have driven the Bolshevik Red Guards back for a distance of fifteen miles on the Ussuri River front taking many prisoners and a large amount of booty.

Paris, Sept. 3.—Allied forces have taken on western front a total of 128,308 prisoners, since July 15, according to official announcement. In the same period 2,009 guns, 1,734 mine throwers and over 13,000 machine guns have been taken.

Washington, August 31.—Privates Brenton K. Fisk, of Kingfisher, Warren T. Spies of Bartlesville and Sergeant Charles R. Shirey of Weatherford, Oklahoma, all of the 163rd depot brigade, were commissioned second lieutenants at the fourth officers' training school at Camp Dodge, Iowa.

Geneva, Switzerland, Aug. 30.—Serious strikes involving 200,000 workmen have broken out at Bochum, Westphalian province in Germany, according to dispatches received from Munich. Three thousand strikers have been sent to the front and 8,000 deported from the region under escort. Troops are guarding towns as riots are feared.

Washington, Aug. 31.—The United States cargo steamer Joseph Cudapay was torpedoed at sea about seven hundred miles from the English coast Aug. 17, and sixty-two of the crew are missing. Thirteen were rescued. Two submarines made the attack. Of the missing twenty-two were members of the naval armed guards.

London, August 30.—British troops have captured Comblies, between Bapaume and the river Somme, according to official announcement from the war office. Advanced British troops have crossed the Somme south and west of Peronne. Between Hendecourt and the Arras-Cambrai road Canadian troops attacked the German line and made favorable progress. East of Sensée the British progressed taking Bullecourt and Hendecourt-Les-Cagnicourt. Bapaume was taken by the British Thursday afternoon.

NEW OKLAHOMA OFFICERS NAMED

Washington, Sept. 3.—A roster of the men commissioned as second lieutenants of infantry at the fourth training camp is as follows: Camp Sherman, Ohio, includes, Paul Ruedemann, Tulsa, Okla., assigned to Eighty-fourth Division, Camp Sherman.

Among the infantry officers graduated from Camp Lee, Va., at the fourth training camp are: Sergeants Ralph Downing, Marshall, Okla.; Guy L. Gee, Apache; James B. Reaves, Shawnee; and Corporal C. Claude Johnson, Tonkawa; Hugh E. Rogers, Pryor.

DAN ROGERS NOT COURT MARTIALED

In some inexplicable way a rumor gained currency that Dan Rogers of Ada had been court martialed. The following cable was received today:

London, Sept. 4, 1918.

Cliff Rogers, Ada, Okla.

Have not been court martialed. Am all right. Love.

10:25 A. M. DAN ROGERS.

STEVENS-WILSON CO.

WEEKLY NEWSLETTER FROM CAMP TRAVIS

Camp Travis, Tex., Sept. 3.—There has grown up on the western edge of Camp Travis a mushroom village which in unique picturesqueness would do credit to the most imaginative writer of wild-west "movie" plays. The village consists of two rows of low frame buildings, all facing the east, toward Camp Travis, each row extending over about four blocks. The streets are not noticeable for their straightness, the buildings seem to have been unable to come to an agreement as to any line or angle on which to arrange their buildings. Co-operation is in evidence to the extent that all are connected by a broad board walk, but the size height and angle of the walk was left to the individual taste of the owners. Each shack has its own flaring sign and each one that is painted has its own favorite color, but some have not gone in for paint at all.

But the village is "wild-west" in appearance only. It is composed entirely of cold drink stands, restaurants, vaudeville shows, shooting galleries, photography shops, skating rinks, etc. In the rear row are more substantial buildings, the big new Salvation Army Hut, the Baptist Chapel, the new Methodist Soldier

The Cool, Clean Klenzo Feeling

Gwin & Mays

We sell War Savings Stamps.

Church, a theatre and a hotel. But the gambling dens of the old west are notably absent, and the thrifty emporiums handle nothing stronger than innocent Bevo.

It requires no pass for a soldier from Camp Travis to visit "Parade Rest," as the village is called, and as a result the rookie can see almost any kind of diversion he likes while not on duty. Also he is saved the expense of twenty cents care fare to San Antonio everytime he has a hankering to see a show or to attend a dance. The religious organizations at the village are having a phenomenal success and are helping the new men soon to feel at home in the Camp. Practically everything a soldier desires can be bought at the village, and be it said to the credit of the proprietors, there is little evidence of profiteering. The young people from the city also entertain their soldier friends at the church buildings, and all in all Parade Rest has become a very popular place with the Camp Travis men.

The village is under the observation of the city and military authorities at all times and nothing of detriment to the soldier is allowed to flourish.

Plans for the organization of the 18th Division at Camp Travis are rapidly taking shape. The 19th and 35th Infantry regiments of the regular army are already in camp and will form the nucleus on which the new division will be formed. These regiments of men already trained will furnish a number of non-commissioned officers for each of the new companies to be formed. A number of privates will be transferred to the new organizations also, and in this manner it is thought the new division will be more quickly and thoroughly trained than it could be in any other way. With experienced men from captain to privates in each company, the new recruits should be able to catch military matters in a hurry.

Special orders have been issued that new men be subjected to no strenuous drill at first. The man of sedentary occupation especially is to be kept in mind, and the hardening process is to be gradual. As it is now the recruits do most of their drilling in the cool of the morning, starting at it about sun-up, while the afternoon is given mostly to lectures, signal practice and games.

No man is going to be worked beyond his strength, every man is going to have abundant good food, and every reasonable pleasure and recreation, but military training will be the first thing always.

NOTICE. Notice is hereby given that we, the undersigned property owners and residents who reside upon a tract of land situated just south of the southern limits of the City of Ada and being adjacent thereto and being what is known as BELMONT ADDITION, have filed a petition with the Board of Commissioners of the City of Ada, asking said Board to take such legal steps as may be necessary to bring in and annex said addition to the City of Ada, Oklahoma.

Said petition will be finally acted upon by said Board on the 17th day of September, 1918, at 2 o'clock P. M. thereof. (Signed) N. B. Dodge, Jr., W. E. Atkins, John P. McKinley, H. J. Conley, Edna Conley, J. E. Hickman.

Old papers for sale at 5 cents per bundle at News Office.

LOCAL HAPPENINGS

From Thursday's Daily.

Cotton reached a new high level in Ada today, thirty-five cents being the top notch.

Rev. B. F. Stegall left this morning for Atoka where he will conduct a revival meeting.

Miss Nelle Robinson will leave this week for Chickasha where she will teach for the coming year.—Francis Wigwam.

Mr. and Mrs. Henry Krieger, Mr. and Mrs. Jessie Krieger and Mr. Troop of New Wilson are guests of C. F. Krieger and family this week. U. G. Stroud of Winslow, Arkansas, arrived in the city today and will be connected with the railroad business at Ada when the consolidation of stations is made.

M. F. Dew has just returned from Texas A. & M. Training Department where he went to visit his son, Henry, who is in the army service there. Mr. Dew says he left his son well and in the best of spirits.

Joe Boyd, former Francis boy who was reported some two months ago as having been killed while fighting in France, recently wrote his mother that he was only slightly injured and is ready to go to the front again.—Francis Wigwam.

At their meeting of Tuesday the city commissioners solved the vexed problem of shows by passing an ordinance forbidding any vaudeville troops performing in Ada during the duration of the war. A similar ordinance relating to tent shows was adopted several months ago.

P. H. Hyder of Lovelady neighborhood is another farmer with plenty of corn for winter. He brought two stalks to the News-office to show what he has done in spite of the drouth. One bearing a very fine ear was planted the last of February and twelve acres will make 30 bushels per acre. The other was a stalk of June corn planted about June 9. It is perfectly green and has a large ear. He will get 100 bushels from the four acres. It was planted just after the last rain in June and had no rain on it until last week.

E. C. Hunter received a message today stating that his nephew, Edwin Gorman of Oakwood, Tex., was killed in action in France, July 21st. It has been but a short time since Mr. Hunter had a long and interesting letter from his nephew telling them of his part in the struggle at the front. At the time the letter was written the young man was behind the lines resting up after seventeen days of continuous active service. He must have met with his fatal accident almost immediately upon his return to the front.

From Friday's Daily

J. B. Corvin returned Thursday from a visit to his old home in Ray county, Tennessee.

Miss Lillian Gibbs left for Boswell this morning where she has a position in the school.

Miss Jewel Hart left this morning for Caddo where she will teach during the coming term.

Henry Russell, who recently underwent an operation at Tulsa for appendicitis, is now at home and getting about.

R. L. Zumbro, who lives on the Ada and Byrd's Mill road three and one-half miles north of Franks, was in town today and said his crops have not suffered as badly from the drouth as some of his neighbors' crops have. Mr. Zumbro planted his crops early and will get a fair yield of corn and will gather something like twenty bales of cotton from seventy-five acres.

From Saturday's Daily

The rain of Friday night amounted to \$2-100 of an inch at Ada. It came in time to help fall gardens and will also prove of great value to pastures and some late crops.

Miss Maud Vernon, who has been teaching the Egypt school, has closed her school until cotton picking is over, which will last for four or six weeks. She returned home Friday afternoon.

Fred Brydia returned today from a trip to Des Moines and Chicago. He reports that crop conditions in Iowa and Illinois are very good. Indeed, wheat was fine and corn will make a record yield. Farmers are in fine spirits.

Rev. J. M. Vernon has just returned from near Blanchard where he has been holding a very successful meeting for the past 12 days. While there he visited his son of Norman who is in the government service as mechanical instructor. Rev. Vernon has received news of his nephew, Dewey Hughey, who is a prisoner in a German prison camp at Hummelberg.

A. M. Crow is in receipt of news of the death of his brother-in-law, Col. J. A. Blanton at Brunswick, Ga. Col. Blanton was 90 years old at the time of his death. He was a colonel on the staff of Gen. Longstreet during the civil war and the last member of the staff. He was badly wounded several times during the conflict, two of which wounds were entirely through the body.

From Tuesday's Daily

Born to J. O. Abney and wife, a son.

Judge I. M. King has been appointed as City Food Administrator.

Mrs. H. J. Saret has received word that her brother, Charles H. Fain, has arrived safely overseas.

W. C. Jones received a wire Monday stating that his son Rance, who is ill at Camp Fremont, Calif., was improving.

Mrs. J. M. Perry returned Saturday from a week's visit to her mother at Atoka. Mr. and Mrs. Alton Surrell accompanied Mrs. Perry home.

Miss Irena Goddard visited her aunt, Mrs. F. C. Krieger, Sunday, returning to her home at Rosedale Monday afternoon. Mrs. Krieger is still quite ill.

eight months term, among those were Allen Francis and Roff.

Lieut. James H. Hodges, who recently received his commission as an officer, and a former student of the East Central State Normal, arrived in the city Tuesday for a brief visit with friends. He returns Wednesday to Camp Taylor.

Midshipman T. O. Cullins, Jr., is home from the naval academy spending a short furlough with his parents, T. O. Cullins and wife. It will be two years more before he graduates and is given his commission in the navy, but he is eager to be in active service chasing the submarines and other craft of the Hun navy.

Prof. R. G. Sears, who has been taking a course at the University of Chicago, has been offered a position in a state university, a position much better than the one he holds in East Central normal, but feeling that he can do better work here, he has declined. As he puts it: "Give me Gordon, Perkins, E. C. S. N. and Ada." He is one of the few remaining members of the faculty who began work when the normal was established here nine years ago.

From Wednesday's Daily

Dr. Deen went to Oklahoma City today to attend the meeting of the Democratic state committee.

Most of the precinct registrars were in Ada today to get final instructions concerning their work on the 12th.

Mrs. O. A. Bayless left Tuesday for Akron, Ohio, where she will visit for some time. She will also visit in Colorado Springs before returning home.

C. C. Roberts, registrar of Walden precinct, requests the News to inform registrants that he will be found at his residence on the 12th, the day of registration.

Mrs. Byron Norrell is attending the conference of district and county chairmen of the ladies committee for the next Liberty Loan campaign being held at Oklahoma City today.

Weston Cain, the young son of Mr. and Mrs. Ralph E. Cain, underwent an operation for appendicitis in the hospital Tuesday afternoon. He is reported to be doing very well today.

As a result of the very unfavorable cotton crop report Tuesday cotton took a big jump upwards and for a time sold well up towards 36 cents on the streets of Ada. Later it reacted and lost part of the gain.

Miss Cora Lee Hopper, who has been visiting friends and relatives here for the past three weeks, returned to her home at Sherman Sunday. Miss Hopper was accompanied home by Mr. and Mrs. J. T. Emry, the party making the trip through in Mr. Emry's car. Mr. and Mrs. Emry returned to Ada Monday.

LETTERS FROM SOLDIER BOYS

From Reuben H. Carver.
San Francisco, Calif., Aug. 18.

Dear Wirt:
I guess that you wonder where I am. I am now at Camp Presidio in San Francisco. We got here last Friday evening about 4:30. Had a 72 hours trip and rode over 1900 miles. It was some ride.

We went through Texas, New Mexico, Arizona and California. At El Paso, Tex., we could see the mountains in Old Mexico. We went through hundreds of miles of almost nothing but sand and dwarfish bushes. I saw many pretty views while crossing the Rocky Mountains and went through 15 tunnels before we got to Frisco, some of them over a mile in length. We rode about 100 miles along the Pacific coast in sight of the ocean. It sure was a pretty view. I have also seen the golden gate. We are stationed right on the north coast of San Francisco bay and can stand in the door of our barracks and see the ships come and go from the ocean. I haven't seen the largest ships yet as most of them are on the Atlantic. We passed by one shipyard and saw them building steel merchant ships. We all went down town last night and saw some of the sights and went to the show and to think I did not get lost. Now what do you think? I have learned a little since joining the army. I think I will go through China town one night this week, also to Golden Gate Park. This makes four letters I have written so my hand is getting tired.

I guess you are preparing to start your school now. Schools are already going on in California.

Well this is a great place. I will write more about it next time. I like it better all the time.

We filled out our qualification cards today and I was asked if I wanted \$5 go across and I said I sure do. I like to travel. I will write again the last of the week. I am fine and have the best of health.

Your brother,
REUBERT H. CARVER,
Presidio, San Francisco, Calif., care
Evacuation Hospital No. 17.

From Earnest Hayes.

Camp Travis, Tex., Aug. 28, 1918.
36th Co. 9th Bn., 165th Depot
Brigade.

The Ada Evening News.
Editor and Friends:—I have the privilege of writing you again. And first will say, I am proud my letters have been published as they have, by the News. I read the News, and find my name appears as a soldier among the many, and am also proud of it in many ways. Yet there was a dread and a large one, though am in hopes of that dread ceasing in a way this afternoon as I took 7:00 O. C. train for Mrs. Ethora Hayes.

For training the climate is favorable and for sleeping it is better at night. We had a nice rain three or four days ago which cheered

"BABY BONDS," THRIFT STAMPS FOR SALE HERE.

School Opens Monday

MILLION RAILROAD MEN TO SHARE IN NEW WAGE INCREASE

Washington, Sept. 4.—Nearly 1,000,000 men, or half the railroad employes in the United States, share in additional wage increases approved today by Director General McAdoo for track laborers, watchmen, other maintenance of way employes, clerks, station agents and other classes of employes drawing relatively lower pay.

The new increases, the second

granted in supplement to the government's general wage order, will add nearly \$100,000,000 to the annual railroad pay rolls, it is said. Most of the increases range from 10 to 30 per cent above present wages.

Details of the new order will be announced tomorrow. The Director General adopted most of the recommendation of the Board of Railroad Wages and Working Conditions which investigated requests of employes for more pay. Pay increases for railroad telegraphers are the subject of another report to be made soon to the director general.

Mr. H. N. Zenor of Cananea, Mexico, came in Tuesday to join his wife, who has been visiting her mother, Mrs. W. A. Wingo for the past month. Mr. and Mrs. Zenor will return to their home at Cananea, Mexico, within a few days.

Mrs. J. F. Guisinger left this afternoon for Henrietta where she will teach during the coming school year.

BUY WAR SAVINGS STAMPS

All in Readiness For "School Days" Here

School opens Monday, September 9th. The mothers' problem this week will be one of outfitting the children for school. The durable suit for the rough-and-tumble boy; shoes, hosiery, blouses and the little accessories that go with the "school day" preparation await selection here.

Military styles predominate in our range of patterns and styles in Boys' School Suits for fall and winter.

NORRIS TO LEAVE; IMPORTANT WORK

LOCAL MAN TO HELP RELIEVE DROUGHT STRICKEN SECTIONS OF THE STATE.

From Saturday's Daily.

P. A. Norris, State Fuel Administrator and chairman of the committee to relieve the drought stricken sections of Oklahoma, will leave Monday for Kansas City in connection with his duties in the last named position. It may be necessary for him to go to Washington before returning. He will help provide ways for the people in the drought covered areas to get money, food and feed for another year. The mission is considered one of the most important ever entrusted to a citizen of the state. The results may determine whether the citizens of the southwestern part of the state are to lose all they have accumulated and move to other regions or be able to stay another year until they can make another crop.

The reports from the various parts of southern Oklahoma indicate that suffering will be great unless something is done in a few days. Realizing this condition, Governor R. L. Williams called a meeting at Oklahoma City the first part of the week to consider ways of relieving the situation. Mr. Norris was appointed to head the committee.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the Blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials.

F. J. CHENEY & CO., Toledo, Ohio.
Sold by Druggists, 75c.
Hall's Catarrh Cure for constipation.

L. A. ELLISON HEADS LIBERTY LOAN CAMPAIGN

L. A. Ellison has been selected as the chairman of the Fourth Liberty Loan campaign in Pontotoc county and will begin work at once. It is not known yet just what the quota for this county will be, but this will probably be announced in a few days.

Mrs. Byron Norrell has been appointed as chairman of the women's department of the campaign.

RED CROSS NOTES.

From Saturday's Daily.
It has been decided to close the work rooms on Mondays until further notice. We are well up with our work. This will give the ladies an opportunity to attend their various church societies which we feel is very necessary to keep going.

Beginning Tuesday, Mrs. Smith, Chairman, of surgical dressings will keep record of the number of hours each worker actually works; after having worked 72 hours, you will be granted the privilege of wearing the Red Cross Emblem, the same as those who have taken the course.

Attention is called from the knitting department, that knitting is coming in very slow. We will ask that all who have had articles on hand for some time to bring them in whether they are finished or not. We urge people to bring the remnants of yarn in. This may seem a small matter, but where there are so many knitting it amounts to a great deal.

MRS. ORVILLE SNEAD, Sec'y.

MAJOR RAYMOND BARTON

AT CAMP HANCOCK, GA.
Judge and Mrs. C. O. Barton are in receipt of a letter from their son, Major Raymond O. Barton of the regular army, stating that he is now in command of a regiment at Camp Hancock, Georgia, and that he is impatient for the order to come to embark for Europe.

Percy Barton, who recently enlisted at Ft. Sill, has been promoted to the rank of first sergeant, which is rapid recognition considering the brief time he has been in the service.

WILSON SIGNS NEW DRAFT LAW

ALL MEN BETWEEN AGES OF 18
AND 45 MUST REGISTER
SEPTEMBER 12.

(By the Associated Press)

Washington, August 31.—President Wilson today signed the man power act bringing all men in the United States from eighteen to forty-five years of age within the jurisdiction of the draft and immediately after the president issued a proclamation fixing Thursday, September 12th, as registration day. All men between the new ages who have not already registered or who are not now in military or naval service of the United States will register according to the president's proclamation. The hours of registration will be from 7 a. m. to 9 p. m. and all state and local officials are called on to make arrangements for maintenance of registration places. Citizens of foreign countries are not exempted from registration unless they are diplomatic or consular representatives. At least 13,000,000 men are expected to register. Registrants in their eighteenth year are to be placed in a special class subject to the educational program already announced by the war department.

MILITARY STUDENTS WILL RECEIVE PAY

Prof. M. B. Molloy is in receipt of the following wire from Pres. J. M. Gordon of the East Central normal who is now at Camp Sheridan: "This settled: Government pays students \$30 and board. Everything on military basis. Will likely have to provide barracks. Government means business. Other questions to be settled. Will likely have athletics. Cruz to organize military band." This applies to the Students' Army Training Corps in the normal and includes youths who have finished high school who are between the ages of 18 and 21.

For a Weak Stomach.

The great relief afforded by Chamberlain's Tablets in a multitude of cases has fully proven the great value of this preparation for a weak stomach and impaired digestion. In many cases this relief has become permanent and the sufferers have been completely restored to health.

ARAB OFFICERS ESCAPE FROM SIBERIAN PRISON

(By the Associated Press)

New York, Aug. 30.—Eight Turkish officers, prisoners of war in Siberia, succeeded in escaping, aided by the English Consul in Vladivostok, and after a long, arduous journey, full of peril, reached New York. They were Arabs, forced into the Turkish army, and had seen service in the Caucasus and the Eastern front. They told of the hatred between the Austrian and German prisoners in Russia and said they never would congregate in the same place. In the battle in Sari Kamish, Enver Pasha, one of the chiefs of the Turkish staff escaped capture by only three minutes. He had been betrayed a trap set for him.

The eight men expect to return to the Hejaz, where they will join the forces of King Hussein in league with the Entente allies.

ROADS CONSOLIDATE FREIGHT BUSINESS

The freight business of the Katy and Frisco roads in Ada has been consolidated and is handled from the Katy station. The passenger service is handled as before at the separate stations, it requiring too much time to attempt to handle the trains at one station. I. McNair is the joint agent for the roads.

AUTOISTS ASKED TO CONSERVE GASOLINE

N. B. Stall, secretary of the Ada local of the American Automobile Association, is in receipt of a communication from the executive chairman of the organization, urging co-operation with the government in the matter of conserving the supply of gasoline. It is pointed out that there are about 5,250,000 motor vehicles in the country and that if each would save a gallon and a half per week it would amount to nearly half a billion gallons in a year valued at \$100,000,000.

McKeown Makes Flight.

Washington, August 30.—Congressman Tom D. McKeown of Ada, Oklahoma, had his first flight in an airplane as a passenger with Capt. Felix Steine, who is in charge of the aviation field here and who was the aviation instructor of the late Mayor Mitchell of New York. Mr. McKeown ascended to a height of an even mile above the city during the trip, which lasted about half an hour. Mr. McKeown looped the loop, performed several spirals and flew for many miles around the capital city. He was thrilled with the exercise and fascinated by the flight, which was completed in perfect safety and without a mishap.

MEN FOR LIMITED SERVICE GO TO ARMY.

Friday Hugh Rogers, Noel Short, Jesse Holland, Ed Allison and George S. Higgs left for Camp Dodge, Iowa, where they will enter limited service in the army, they being incapacitated for regular duty. Rogers has but one arm. Short one leg and Addison is a cripple, but the boys were all eager to do something to help, so they were given this assignment by the local board.

A number of the questions which the new registrants must answer deal with citizenship, and the registration card will fully define nativity of each man, the information presumably assisting in applying the military service regulations of allied nations to their nationals.

GENERAL RAIN IN EASTERN OKLAHOMA

Muskogee, Okla., Aug. 31.—General rains fell over practically all of eastern Oklahoma Thursday night and Friday, resulting in great benefit to forage crops, and relieving to some extent the shortage of stock water.

Reports to railroad offices here indicated a heavy rain fell over a considerable area, beginning about Waggoner, where a heavy downpour fell for an hour yesterday afternoon, and moving slowly to the east. This morning, a big rain was falling between Panama and Fort Smith, on the Midland Valley railroad.

CONFEDERATE VETERANS ELECT DELEGATES

The Confederate Veterans, at their meeting Sunday afternoon, elected S. H. Hargis and A. M. Crow as delegates and W. H. Fisher and W. T. Cox as alternates to the Tulsa reunion.

A number present signified their intention of attending the reunion and it is expected that Ada will be well represented.

A committee was appointed to confer with the commercial club, council of defense and business men regarding the matter of inviting the next state reunion to come to Ada. The place was not named at the last meeting but will be at Tulsa and it is suggested that an invitation from Ada will likely be accepted as the veterans were highly pleased with their entertainment here at other times.

PRESIDENT NAMES 2,000 POSTMASTERS

(By the Associated Press)

Washington, August 29.—Nominations for nearly 2,000 postmasters in all parts of the country were sent today by the president. Most of the nominees are present postmasters. The postmasters at Enid and Kingfisher, Oklahoma, were among those renominated.

AIRMEN MAKING IT HOT FOR GERMANS

Behind the British Lines in France Aug. 31.—(Correspondence of The Associated Press)—More than 244,000 pounds of bombs were dropped in a single day recently by pilots of the British air force on objectives behind the German lines.

In a week, military establishments at twelve places were attacked by air 23 times by the British Air Force. Captured documents showed that the German army communications had been seriously interrupted at several points.

A report from Metz shows that after a recent raid when the gas works and a number of other important military objectives were heavily bombed, a part of the civil population was sent to Luxembourg.

A prisoner stated that while he was in Valenciennes, most of the important factories in that city were damaged by bombs from the airplanes which were so high up that they were invisible from the ground. One large factory with four or five chimneys was almost completely demolished.

REDUCED RATES TO TULSA U.C.V. REUNION

On presentation of an identification certificate signed by the commander of the camp, the following classes may secure tickets to the Tulsa reunion at the rate of 1 cent per mile each way:

Members of the United Confederate Veterans.
A member of the family of a member of the United Confederate Veterans.

Member of the Sons of Confederate Veterans.

A member of the family of a member of the Sons of Confederate Veterans.

A member of the Confederate Southern Memorial Association.

A member of the family of a member of the Confederate Southern Memorial Association.

BODY OF SOLDIER BROUGHT HOME

The body of Boone Hays is expected to arrive today from Camp Cody, New Mexico, and will be interred at Rosedale cemetery. His death occurred Thursday but details were not given in the wire telling of it.

The young man is a grandson of Mrs. Trout who lives north of Ada and recently went to Camp Cody with the other boys who are training to fight the battles of the nation. While not permitted to go to the fighting line, he gave all he had for his country just as truly as though laid low by a German bullet.

When you have an achey, stretchy feeling and you are dull, tired and discouraged it is a sign of approaching malaria or chills. You should act quickly to ward off an attack. HERBINE offers you the help you need. It destroys the malarial germ, drives out all impurities and makes you feel bright, vigorous and cheerful. Price 60c. Sold by Bart Smith.

POINTED QUESTIONS FOR NEXT REGISTRANTS.

Washington, August 29.—Men between 18 and 45 who register under the new man-power bill will be required to furnish personal information much more varied and extensive than has been secured from registrants of military ages in previous enrollments, a synopsis of the registration card prepared by the provost marshal general shows. It will carry 20 separate questions.

Washington, August 30.—Contending that existing refining capacity is ample for the mid-continent fields all new oil refineries were held non-essential today by the fuel administration, according to announcement.

UNION HILL

Everybody is picking cotton these old hot days and feeling mighty blue because they haven't got more to pick than what they have.

Two of our boys from Union Hill left for Camp Pike yesterday the 29th. They seemed to enjoy themselves fine in town on that day, driving the other fellow's car and taking in the shows. But I know we all had rather see them do that than to see them grieve and worry about going.

Hope there will be another meeting start soon for we sure had a good one while it lasted, but it only lasted four nights.

There is prayer meeting at the Union Hill school every Wednesday night. Everybody invited to come and bring somebody with them. Hope I'll get there as I haven't been in some time. May not get back.

Guess everybody is proud the men are working the roads.

Maybe the Union Hill folks can help with the next meeting at the corner.

Well Egypt come on. Ha, ha, ha.
JIMBO.

JEWISH REPUBLIC IN HOLY LAND ASSURED

(From the Committee on Public Information, Washington, D. C.)

After 2,000 years of exile, it is now almost certain that a Jewish government will be established in Palestine. When General Allenby, at the head of his victorious army, carried the Union Jack into the Holy City last December, a dream of twenty centuries became possible. On the hills of Zion a Jewish civilization with something of its old moral and intellectual vigor may once more come into being. The Jews have seized their opportunity, and already an Administrative Commission of Hebrews is at work restoring the country for that race.

This Administrative Commission has a program. Its aim is to bring back the life of the Jewish colonies in Palestine to their flourishing pre-war conditions. It intends to furnish the necessary educational, medical and economic aid to all Jews who go back to the Holy Land. One of its most important projects is the immediate founding of a Jewish university. Along the lines of diplomacy, the Commission proposes to create harmonious relationship with the Arab and Armenian states which are to be its neighbors.

All over the world, the tribes of Israel have waited through the centuries for this promised day. Their poets have sung of it. The exiles have yearned for their native land. Great Britain's military operations of last winter have furnished an opening wedge for the realization of Zion's hopes. When Britain undertook the rescue of Palestine, in order to strike a staggering blow at the Turk, the eyes of Jews everywhere watched the progress of General Allenby's army. They saw that little army foot by foot and mile by mile drive back the Turk and the Hun. Their joy grew as they beheld it move forward from Baza to Bethlehem, from Jerusalem to Jerusalem, from Jerusalem to Jericho. When Jerusalem fell, the delight of Jews was unbounded, for Britain had already gone on record, through the speech of Balfour, as favoring the establishment in Palestine of a national homeland for the Jews.

Jews Migrate Back to Palestine.
The story of the return to Palestine of the Jews during the last forty years is as amazing as that of our Pilgrim fathers and in many ways a remarkable parallel to it. This migration too was born of persecution. The first great series of massacres of Jews in Russia began in 1882. Scores of thousands of them fled to America. A few turned toward Palestine.

Every great movement of the Jewish tribes has had its prophets and leaders. The Moses of the modern Zionist movement was Theodor Herzl. Herzl dreamed of a national homeland for his race. His pamphlet, "Ein Judenstaat" (A Jewish State), was a call to the Jewish people to organize themselves on a national basis and create for themselves a home state. Herzl spoke of that home state vaguely as "Over There." He knew little of the history of his people and he knew nothing of what was transpiring in Palestine. Still, so remarkable was the effect of his pamphlet that inside of a year the first Zionist congress was held in Basel, Switzerland.

The Joshua of the Jews today is Dr. Chaim Weizman, president of the Administrative Commission. He is a chemist. He was born in Russia, but later became a British subject. Zealous in the cause of the Zionist movement, he nevertheless has a strong practical sense that appeals to the British. Early in the war, Great Britain lacked a certain combination of chemicals for making explosives. Weizman in his laboratory worked out that combination. He acquired a reputation and made influential friends. Balfour was one of them. Thus championed, the Jewish aspirations moved into the realm of practical politics.

Land Miraculously Developed.
The pioneers in Palestine in 1878 found a land that was arid, barren, full of miasma and surrounded by hostile tribes. These first immigrants were professional men. They knew nothing of agriculture; yet they reconquered the land for their race. The scientific achievements of the Jewish agriculturalist in Palestine have pointed the way for all regions in the world of similar soil and climate to increase their productivity. At Petach-Tikvah, the oldest of the colonies, founded on the banks of the River Aujah, northeast of Jaffa, in 1878, and developed under innumerable difficulties, an acre of irrigable land was worth 3 pounds, 10 shillings in 1890. In 1914, it was worth 36 pounds. Again, between the years of 1904 and 1912, the annual volume of trade at the port of Jaffa rose from 760,000 pounds to 2,080,000 pounds.

Within a generation, this land of desolation was the home of 15,000 Jewish farmers organized in co-operative societies. Towns began to develop. The Jewish population in Jerusalem grew from a handful to 60,000. The little colonies were operated under managing boards which were elected annually by universal suffrage. Banks were established, trust companies financed, and schools built. Every village has its Hebrew school and a Hebrew kindergarten. Hebrew was the chosen language of all the schools.

Germany Interferes.
But already the pan-Germans had turned their gaze to these struggling Jewish colonies. Here, they thought, was a gateway to the Orient. Accordingly, they began laying their plans to get possession of it.

Among those who contributed toward the Jewish Institute of Technology at the foot of Mount Carmel were two Germans, James Simon and Dr. Paul Nathan. They became members of the governing board. When the board sought to pass a resolution introducing Hebrew as the sole language of instruction in the school, the German members suddenly rose up and opposed it. They demanded that all scientific and technical subjects be taught in German. The controversy which ensued over the language question was one of the first battles fought in the Great War.

The Jews won their victory. When the Germans pushed through their plans in their dodged Prussian fashion, the friends of the Hebrew language resigned in a body. At Jaffa, at Jerusalem, and at Haifa, meetings of protest were held and resolutions were passed demanding a reconsideration. The students of the school protested, but their pro-German director ignored them. The teachers protested. Dr. Nathan over-ruled them. Thereupon, teachers and students resigned together and went over to a new Hebrew school. The fight continued, with the result that six new institutions were opened by the Zionists at all of which Hebrew alone was taught. Thus the attempt to Prussianize Palestine had already been morally defeated before the war broke out.

Zionist Troops in the War.
But the language was merely a clash of cultures, a battle of principles fought to a finish without bloodshed. Since then, the devoted Zionists of Palestine have taken part in actual warfare. They are now fighting among Entente troops for the cause of democracy as valiantly as any soldiers.

One organization of Jewish soldiers played a part in the glorious but ill-fated Gallipoli campaign. This force, known as the Zion Mule Corps, was organized from among those Jews who were compelled to flee from Palestine at the outbreak of the war because they refused to become Ottoman subjects. Untrained in the arts of war, yet eager to do their bit, they volunteered for the unarmored tasks that are a part of any military campaign.

They were prepared to carry water and to lead the mules carrying ammunition to the first line trenches. They were placed under the command of Col. Patterson, that brilliant Irishman who has since sung their fame in the notable book entitled, "With the Zionists at Gallipoli," in which he tells how in the face of shot and shell, in the very thick of the fray, they went resolutely about their task. And he tells of that remarkable moment when the Royal Irish regiment had gotten into a tight place. These muleteers abandoned their appointed tasks, not to flee to a place of safety, but to jump into the trench, and taking rifles from dead soldiers' hands, fought as valiantly as "the ladies from hell" and won the day.

Out of this Zion Mule Corps has grown the Jewish Legion, organized in America, England and Canada from among Jews who for one reason or another (except physical) are ineligible to the draft in the country of their residence. Fifteen hundred have already gone to Palestine from America, and they have joined at the front the Jewish regiment which was organized in London, and which has already received its baptism of fire somewhere north of Jaffa. Other contingents are preparing to go from America and still others from Canada. There is hard fighting ahead of Palestine, but these men are going prepared to make the supreme sacrifice because they know that in doing this, they are giving their utmost to speed the day when the blue and white flag of Zion, with the six cornered star of David in the centre will float proudly among the flags of the free nations.

GREAT SLUMP IN COTTON PROSPECTS

Washington, Sept. 4.—A disaster unparalleled in the history of the cotton growing industry in the United States has befallen the American cotton crop this year. As the result of a severe drought in July and August the government's September cotton report, issued today, forecasts the prospective production this year at 11,137,000 equivalent 500-pound bales, 4,000,000 bales less than was forecast at the beginning of the season.

Cotton growers planted this year the second largest acreage on record and prospects seemed bright for one of the largest crops grown. Drought during July, however, reduced the crop by 1,616,000 bales, and dry weather in August caused the greatest deterioration ever recorded in a single month, there being a decline of 17.9 points in the condition August 25, as compared with July 25.

The entire cotton belt was affected, but in Texas and Oklahoma and the western part of the region it was greater than in the east. The extent of the depreciation amounted to 2,482,000 bales, reducing the prospective production to 11,137,000 bales. A crop of that size would be slightly smaller than those of the last three years.

Big Footed Negro Soldier.
(By the Associated Press)
Battle Creek, Mich., Aug. 30.—An Alabama negro select is owner of what are said to be the largest pair of feet at Camp Custer. So large are his pedal extremities that a special pair of army shoes is now being "built" for them.

When the shoes are finished, they will be the first he has ever worn. Asked what he did at home in cold weather to protect his feet, he replied that "went into the house."

At Camp Custer the negro attracted attention when he arrived, not only because he was barefooted, but because of the size of his feet. The largest pair of shoes at the quartermasters' depot was several sizes too small. The shoemaker measured the negro's ankles as 13 inches but would not even estimate the size of the shoes being made.

There are many things we can do to help our country. Don't fail to invest your savings in War Savings Stamps.

AMERICANS EAGER TO REACH FRONT

American Port, Western France, Aug. 29.—(Correspondence of The Associated Press)—The spirit which animates all Americans here is the same as that of the front line trenches, is the words of the general commanding. It is an inspiration of intense eagerness. This is shown by the fact that under the stress of haste to send American soldiers to the fighting front, the time required to unload the greatest of American transports bringing 12,000 troops, coal and start her back to America, has been reduced from four days to forty hours.

This is the best deep water port of western continental Europe with a harbor capable of receiving the navies of the world, and yet up to the time the Americans came here six months ago it was practically undeveloped and unused. It was estimated then that the facilities might possibly permit the landing of 30,000 men a month.

But with 250,000 men a month coming from America, something had to be done on a gigantic scale and done quickly. Fortunately the emergency produced the men, an American brigadier general who has planned and executed some of the great engineering projects of the west, and an American admiral who has the reputation of accomplishing large things in a quiet way. Around them were grouped men of the same talents.

Out of it has arisen this marvelous receiving port of today, where one day's landing of 45,000 men has been followed the next day by 15,000—60,000 in two days or at the unheard rate of 900,000 a month. And the strange thing has been that the port has not felt or even known of the huge migration passing through its gates, so quietly and smoothly the organization has functioned.

It is the same with the handling of the immense stocks of war supplies as it is with the handling of troops. Six months ago it was estimated that 6,000 tons a month could be handled. Actually more than that is handled daily, and this is not the main port for supplies, as it is for men.

A large measure of credit for the high record in debarking troops is given by the general to the officer in charge of the several thousand negro stevedores. This officer has had a remarkable career which exactly equips him for the present huge undertaking. He was a Liverpool docker, who went to the United States with the Cunard company, and worked up to the position of terminal superintendent at Boston. As an expert and master of docking he was appointed a major in the army. But he forgets all about being a major when he takes command of those 2,000 black stevedores and a great ocean steamer heaves into sight with thousands of men aboard who must be landed on record time. All the old spirit of the Liverpool docker comes back again, he becomes a human dynamo, and the army of black stevedores follow him with the same eagerness that men follow their leader "over the top." Here are some examples showing just what this means.

When the greatest of American transports first came over it took 52 days to unload at Liverpool. The next trip was better—28 days. Then on the third trip it was decided to send her to this French port where the Americans had begun to take things over. It was a risky experiment, they thought. But they failed to reckon on the major and his black stevedores, for this is the remarkable record of how the great vessel has been handled at this port:

First arrival 10,000 men and supplies unloaded and the ship coaled and sent back in four days.

Second arrival, unloaded, coaled and sent back in three days.

Third arrival, unloaded, coaled and sent back in forty-eight hours.

Fourth arrival, unloaded, coaled and sent back in forty hours.

The magnitude of such an accomplishment may be judged by the fact that 5,000 tons of coal has to be put on the huge transport to send her back, and all of this must be loaded from lighters as her 41 feet of draught keeps her out in the harbor. And all this in forty hours be-

lieves the ship.

When the ship is loaded with troops and sent back to the front, it takes only four days to get her back to the front.

When the ship is loaded with troops and sent back to the front, it takes only four days to get her back to the front.

sides debarking 10,000 troops on lighters and several thousand tons of steel and emergency war cargo. Americans seem to have discovered for the first time that this port is nearer New York than any of the great ports, and is thus on the great commercial high road from the west to continental Europe. This holds out a brilliant future for the port in the after the war commercial renaissance. One of the foremost American engineers recently said he would like to undertake to make this the great commercial port of Europe, and he believed this would certainly result from the American development incident to the war. So that, besides landing soldiers and supplies here, America is paving the way to making this the first port of Europe and the landing terminal for the commercial penetration of Europe from the west.

WILL USE AIRPLANES FOR EXPLORING

London, Sept. 4.—(Correspondence of The Associated Press)—Airplanes will be widely used, after the war, for purpose of exploration and survey, said Harold Brighthouse, of the Royal Geographical Society, to a representative of The Associated Press, commenting on the announcement that Captain Amundsen's Arctic expedition, which has just sailed, has taken three airplanes as part of its equipment.

Captain Amundsen will use these airplanes for geographical and meteorological research in the Arctic," said Mr. Brighthouse, "and they should prove very useful in this connection. With peace will come a large extension of the use of the airplane in exploration."

"There is no reason why the remotest parts of Africa or the upper waters of the Amazon should remain unmapped. Aerial photography has reached a stage when all that is necessary for exact mapping is a continuous series of photographs. Tracts of Portuguese East Africa, which had never before been charted, were, in fact mapped by means of the air photography of British aviators."

"The undiscovered natural resources of a new country can be observed from airplanes. The eye of the observer reveals much; the air camera even now is an excellent guide in indicating the kind of wood growing in a forest, and will be of greater utility still as the development of aerial color photograph progresses."

"Railway survey through savage lands, which, both in life and money, has been a tremendously costly preliminary to construction, will become safe, and so cheap as to present no financial obstacles whatever, to a survey which uses aerial photography."

"Not only can the course of rivers be traced, but their navigable channels can be ascertained, and the combined discovery made of valuable natural products together with the best means of transporting them by river."

"Water, then as now, will probably be the explorer's chief guide and his machine is more likely to be of the seaplane type, with floats than the airplane type, with wheels. He will fly high, and should he have to make a forced landing, will steer for lake and river rather than for the rare open spaces of a tropical forest."

"For the air explorer, the romance of flying will persist; the value of the work will do so obvious; and there are many pilots in the allied armies today who will find in aerial exploration play for the typically British spirit of adventure."

"In the future of aviation there is elbow room for all, the sportsman-pilot will find in exploration by air an enterprise made to his taste."

Mrs. Fairchild received a message this morning from Miss Pearl Curry stating that she would be here the first of October to begin her work of teaching voice.

Mrs. John Stein and children, Emma May and Jack, who have been the guests of W. A. Riey and wife returned to their home at Birmingham, Ala., this morning.

Miss Stella Watson of Coleman, Texas, arrived this afternoon. She is one of the new critic teachers at the normal.

BRITISH REACH CANAL DU NORD

London, September 4.—In their push beyond the Drocourt-Queant line the British have reached the line of the Canal Du Nord, according to Field Marshall Haig's official statement. North of the Arras-Cambrai road they have occupied the town of Ecourt St. Quentin. North of Peronne the British advanced through the Vaux woods, above Moislans. Continuing their advance in Flanders they are approaching Neuve Chapelle and Laventie.

Progress of British

London, Sept. 4 (1 P. M.)—The British have secured a hold on the west bank of the Canal Du Nord by taking Rumaucourt, which is north of Sains-Les-Marquion, according to advices from the battle front. Farther south along the canal they are reported to have captured Inchy En Artois, Demicourt, to east of Doignies, and Permyes three miles northeast of Bertincourt. Near the Somme the British have crossed the canal at Haut Allaines, which is slightly over two miles north of Peronne.

French Continue Drive

Paris, Sept. 4.—The French last night continued to push back the Germans to the east of the Canal Du Nord and between the Ailette and Aisne, says today's official statement. In their advance the French took Chapitre wood northeast of Chevilly and approached the town of Crisolles, three miles north of Noyon. North of the Ailette river, the French reached the outskirts of Coucy-Le-Chateau and Juvincourt. Prisoners to the number of 1,500 were taken. Along the Vesle French parties crossed the river at several points.
